

VILLAGE OF ESTERO, FLORIDA

VILLAGE COUNCIL MEETING
MARCH 17, 2015

REQUEST FOR VILLAGE COUNCIL CONSIDERATION

Agenda Item: 9. (J)	Prepared By: Howard Levitan
Agenda Section: Council Business	
Subject: Resolution Authorizing the Interim Village Manager to Purchase Information Technology Equipment and Services not to Exceed \$65,000.	

BACKGROUND:

As part of the ECCL Transition Work, while investigating the availability and desirability of utilizing the offices of the Estero Fire and Rescue Administrative Building for temporary space, the three unopposed candidates (now members-elect) Nick Batos, Howard Levitan, and Bill Ribble met with Chief Vanderbrook and his Assistant Chief, Mark Wahlig. During that initial meeting a discussion took place about the potential imminent needs of the Village for Information Technology (IT) and the utilization of the computer storage room at EFR should we determine to use that option for interim space for the Village Offices.

Based on advice of Gray Robinson with respect to Florida Public Records laws, it became clear that the Village will need the capability to archive and retrieve for the public, all documents, emails, telephone records, and other written materials that relate to the business of the Village produced by the Village Council and all of the employees of the Village. Gray Robinson has recommended that the Village should set up a secure computer network with full and secure backup capabilities, and purchase for the members of the Council and the Village Manager both laptop computers and mobile telephones to be owned by the Village, which would be used only for business of the Village and become a part of the computer network for the Village.

In our discussions with EFR Assistant Chief Mark Wahlig, it became immediately clear that he both had a great knowledge of setting up such a system, which was part of his responsibilities for EFR, but he also was willing to assist the Village so that it would be capable of utilizing the computer storage space at their Administrative Offices. We asked if he could provide us with a preliminary design

of such a secure computer network, plus email capabilities, and telephones, for the council members, the interim village manager and the initial employees.

Attached are his recommendations in the form of a letter dated March 9, 2015, which describes the overall system that is recommended on a long-term basis, which would enable to Village to start off immediately to conduct its business. Also attached are the individual quotes from the various vendors.

The first part of the proposal deals with 5 desktop computer stations, which would be set up in the offices proposed to be rented by the Village at EFR. These were purchased by the EFR for their own use if the Village decided not to rent space at EFR, but would become a part of the Village's computer system if we did take space there.

He then set up a virtual computer system on EFR's servers running on temporary server licenses. This will enable to Village to immediately utilize email addresses

FUNDING SOURCE / FISCAL IMPACT:

Approximately \$65,000

RECOMMENDATION:

Approve Resolution authorizing the Interim Village Manager to purchase information technology equipment and services not to exceed \$65,000 and authorizing the Village Mayor to execute contracts.

POTENTIAL MOTION:

I make a motion to approve the Resolution authorizing the Interim Village Manager to approve the Resolution authorizing the Interim Village Manager to purchase information technology equipment and services not to exceed \$65,000 and authorizing the Village Mayor to execute contracts.

March 9, 2015

Village of Estero
21500 Three Oaks Pkwy, Suite 200
Estero, Florida 33928

On behalf of the Village of Estero, I was asked to conduct some initial groundwork as it relates to the Village's Information Technology Network.

I have contacted Softchoice, Dell and Verizon, three vendors currently conducting business with the Estero Fire Rescue District. They have supplied quotes for service and hardware based on government pricing where available. In the event the Village elects to move on these purchases, the Village would need to establish an account with a tax exempt number to proceed. I have initially listed myself as the contact in order to expedite the quotes and the delivery.

In regards to desktop computers, five (5) machines have been ordered on your behalf and are expected to arrive the week of March 9, 2015. Upon arrival, I will install and configure these machines to be operational on your temporary network as soon as possible and hopefully prior to March 17th.

In regards to a Village Network, I have established three virtual machines on the District's physical server hardware running temporary MS Server 2012 R2 licenses. The machines are setup as:

1. village-vm1: Domain Controller / Fire Server
2. village-vm2: Exchange Server
3. village-vm3: SQL server / GFI MailArchiver

This configuration follows my recommendation to the Village for server allocation. I would recommend two (2) physical servers each running VMware virtualization. Within these two (2) machines I would create a minimum of four (4) virtual guest running MS Server 2012 R2. I would use those four (4) machines as established above with the extra one being a dedicated file server and perhaps a backup domain controller. Upon receipt and installation of the Village's server hardware, the above virtual servers can be relocated to the new hardware.

The hardware specified for this startup network includes a Dell Vertex machine which is capable of storing the redundant backups of both physical servers. In the event one physical failed for any reason, the remaining server could carry the load while the down server is repaired or reconfigured. The Dell server hardware was specified with five (5) years of service and support

for protection. In addition I have included the cost for a 24 port network switch which will allow the Village to function in isolation from other network activity at the District's headquarters.

In regards to software, I have used temporary licenses where possible to facilitate a fast start up. The server licenses are good for 180 days and MS Office is good for 60 days. I have specified MS SQL server and GFI MailArchiver to archive the Village's email in accordance with state retention requirements. I recommend Veeam Backup to backup the Village's servers and data to the Dell Vertex storage device. This will allow multiple backups and restore points. Vipre Anti-virus software is recommended in the quotes as well.

Keep in mind that licensing for Exchange Server, Windows Server, GFI MailArchiver and MS Office is dependent on each employee or machine utilizing the service. Where necessary I have quoted 10 licenses or "seats" to cover seven (7) council members and up to three (3) employees. Adding licensee once established is an easy process.

I have established email accounts at the [villageofesterofl.org](mailto:district1@villageofesterofl.org) domain address for each council member as well as an alias to the district number, i.e. district1@villageofesterofl.org. The email server appears to be functioning at <https://mail.villageofesterofl.org/owa> . I am still fine tuning the server in order to support email on mobile devices.

For cellular phone service I have included a quote for 8 iPhones. In addition, I included the \$36.05 for each device for the government rate which includes all data and a per minute charge of \$0.052 per minute.

I am still working with CenturyLink to secure phone service for the district at the Estero Fire Rescue headquarters.

I will be in attendance of the Village's first meeting and will make myself available as needed to the council.

Sincerely,

Mark C. Wahlig, Assistant Fire Chief
Chief Information Officer
Estero Fire Rescue

Village of Estero

Explanation of other charges & fees		<i>Phones / PDA's \$0.22</i>	<i>Air Cards: \$0.02</i>	
<p>Verizon Wireless' Surcharges include charges to recover or help defray costs of taxes and of governmental charges and fees imposed on us, including a Regulatory Charge (which helps defray costs of various regulatory mandates, including government number administration and license fees) and a Federal Universal Service Charge (and, if applicable, a State Universal Service Charge) to recover costs imposed on us by the government to support universal service, and may include other charges also related to our governmental costs. It also includes an Administrative Charge, which helps defray certain costs we incur, currently including (i) charges we, or our agents, pay local telephone companies for delivering calls from our customers to their customers, (ii) fees and assessments on network facilities and services and (iii) certain costs and charges associated with proceedings related to new cell site construction. Please note that these are Verizon Wireless charges, not taxes. These charges, and what's included, are subject to change from time to time.</p>

Statement of Conditions

The information in this document is believed to be accurate. However, Dell assumes no responsibility for inaccuracies, errors, or omissions, and shall not be liable for direct, indirect, special, incidental, or consequential damages resulting from any such error or omission. Dell is not responsible for pricing or other errors, and reserves the right to cancel orders arising from such errors.

Dell may make changes to this proposal including changes or updates to the products and services described, including pricing, without notice or obligation.

This proposal is not intended to create a contractual relationship. Unless expressly agreed otherwise in a writing signed by the parties, all orders by ESTERO FIRE DEPT for Dell products and services shall be subject to Dell's Terms and Conditions of Sale-Direct, which can be found at www.dell.com/terms, and which incorporate Dell's U.S. Return Policy, at www.dell.com/returnpolicy#total. Please read those terms carefully and in their entirety, and note in particular that Dell EqualLogic and EqualLogic-branded products, Dell|EMC and EMC-branded products, PowerVault ML6000 tape libraries, non-Dell-branded enterprise products, enterprise software, and customized hardware or software products may not be returned at any time. Orders also shall be subject to the terms of any applicable service contract(s), which can be found at www.dell.com/servicecontracts.

All information supplied to ESTERO FIRE DEPT for the purpose of this proposal is to be considered confidential information belonging to Dell.

About Dell

Dell Inc. (NASDAQ: DELL) listens to customers and delivers innovative technology and services they trust and value. Uniquely enabled by its direct business model, Dell is a leading global systems and services company and No. 34 on the Fortune 500. For more information, visit www.dell.com.

Privacy Policy

Dell respects your privacy. Across our business, around the world, Dell will collect, store, and use customer information only to support and enhance our relationship with your organization, for example, to process your purchase, provide service and support, and share product, service, and company news and offerings with you. Dell does not sell your personal information. For a complete statement of our Global Privacy Policy, please visit dell.com/privacy.

2
3 **RESOLUTION NO. 15- _____**

4
5 **A RESOLUTION AUTHORIZING THE INTERIM VILLAGE**
6 **MANAGER TO PURCHASE INFORMATION TECHNOLOGY**
7 **EQUIPMENT AND SERVICES NOT TO EXCEED \$65,000;**
8 **AUTHORIZING VILLAGE MAYOR TO EXECUTE**
9 **CONTRACTS; AND PROVIDING AN EFFECTIVE DATE.**

10
11 **WHEREAS,** Village of Estero is a newly incorporated municipality; and

12
13 **WHEREAS,** the Village is in need of information technology equipment to ensure the
14 effective communication of Village Staff and Councilors, for the retention of records, and for the
15 ability to conduct day-to-day business operations; and

16
17 **WHEREAS,** Assistant Fire Chief and Chief Communication Officer, Mike Wahlig, of
18 the Estero Fire Rescue District has contacted vendors currently being used by the Estero Fire
19 Rescue District; Softchoice, Dell and Verizon which have supplied quotes for service and
20 hardware based on government pricing where available, included herein by reference; and

21
22 **WHEREAS,** the total package of services and hardware costs approximately \$65,000;

23
24 **NOW, THEREFORE,** be it resolved by the Village Council of the Village of Estero,
25 Florida:

26
27 **SECTION ONE.** The Village Council hereby approves the purchase of hardware
28 and services from Softchoice, Dell and Verizon in accordance with the quotes provided, in an
29 amount not to exceed \$65,000.

30
31 **SECTION TWO.** The Village Council authorizes the Village Mayor to execute the
32 contracts with Softchoice, Dell and Verizon.

33
34 **SECTION THREE.** This Resolution shall take effect immediately upon adoption.

35
36
37
38
39
40 **THIS SPACE INTENTIONALLY LEFT BLANK**

46 **ADOPTED BY THE VILLAGE COUNCIL** of the Village of Estero, Florida this _____ day
47 of March, 2015.
