

AGENDA ITEM SUMMARY SHEET
VILLAGE COUNCIL MEETING
November 6, 2019

Agenda Item:

Village of Estero Street Light Standard

Description:

As the Village of Estero contemplates installing street lights along public roadways, it is important to determine if the Village wants to establish an overall standard.

Staff will present several potential street light standard options to Council. The standards outline options for street light poles, arms, bases, fixtures, and colors.

Action Requested:

Council could approve a street light standard or decide a street light standard is not desired and address street lights on a roadway by roadway basis.

Staff is recommending Council approve the following standard:

- Fixture – Side Mounted Cyclone Domia
- Pole – Painted Aluminum
- Arm – Option 1 (M522 – 72”)
- Base – Decorative Base
- Color – Dark Bronze
- Light Color Temperature – 3000K (softer light)

Financial Impacts:

There are no direct financial impacts with the proposed agenda item.

However, if Council selects a standard street light, costs will be incurred at the time street lights are installed.

The presentation to Council provides a summary of potential future financial impacts.
