Design Concept

Mediterranean/Spanish Revival is a design style introduced in the United States in the waning nineteenth century variously incorporating references from Spanish Renaissance, Spanish Colonial, Beaux-Arts, Italian Renaissance, Arabic Andalusian architecture, and Venetian Gothic architecture.

This movement has drawn heavily from the Spanish influences of the early American colonization from Spain. the style thus has historical reference to the expanding communities throughout Florida and California.

Design Standards

Typical Elements

1. Impression of height- by using towers
2. Light colored stucco exterior walls
3. Smooth and or textured stucco/siding
4. Prominent one story loggias
5. Pitched roofs
6. Barrel looking roof tiles
7. Simple massing
8. Simple lines
9. Hipped roofs with parapet walls
10. Earth tone Color
11. Decorative features like Medallions
12. Precast stone trim
13. Awnings
14. Exterior banding and or trim

9-Parapet walls

Building Composition and Design

Roof Design Standards

Roof Material

- *Barrel style tiles are required for all buildings in the project areas. Clay, concrete or simulated (metal) Barrel roof tiles may be allowed provided they match adjacent areas in similar color and look.*

Roof Colors

- *Roof colors are to be in the red/brown/Terracotta color ranges. Multi colored or flashed tiles are preferred. An earth-tone color palate roof tops give the buildings a warm, earthy, rustic look.*

Roof with "Flashing"

High Profile "S"

Multi-Colored

Single color

Metal Roof tile

Building Walls/Material Design Standards

Building Wall Material Elements

Texture

- A variety of textures may be used in combination to create a more authentic look.

Precast and insert tile

- Precast may be used as an accent material in a design that is rusticated, not refined.

Tile roof

- Tile roofs can be used to define elements or be used to create textures to break up large mass or stucco areas while providing a more traditional feel against the stucco.

Composition

- It is the organization, mixture, and artistic positioning of all the elements that create design excellence

Stucco texture Examples

Stucco with precast trim

Stucco with trim accents

Stucco with Stone Accent

Colors/Material Design Standards

Existing Colors and Materials will stay the same or similar

Material/Landscape Design Concept*

Royal Palm

Sable Palm

Live Oak

Red Tip Cocoplum

Any new landscaping will meet the current Village of Estero including native counts

Proposed Landscape Material

Trees and Palms (100% Native/Drought Tolerant)

Bucida buceras ~ Shady Lady Black Olive	12'-14' HT, 6' SPRD, 3.5" CAL
Quercus virginiana ~ Live Oak	12'-14' HT, 6' SPRD, 3.5" CAL
Pinus elliottii ~ Slash Pine	12'-14' HT, 6' SPRD, 3.5" CAL
Cordia ~ Orange Geiger	
Delonix regia ~ Royal Poinciana	12'-14' HT, 6' SPRD, 3.5" CAL
Roystonea regia ~ Royal Palm	12' min. CT, 8' CT next to path
Sabal palmetto ~ Sabal Palm	12' min. CT, 8' CT next to path
Ilex ~ Dahoon Holly	

Shrubs and Groundcovers (100% Native/Drought Tolerant)

Chrysobalanus icaco 'Red Tip' ~ Red Tip Cocoplum	36" HT after 1 year
Muhlenbergia capillaris ~ Muhly Grass	36" HT after 1 year
Hamelia patens ~ Firebush	36" HT after 1 year
Tripsacum dactyloides ~ Fakahatchee Grass	36" HT after 1 year
Duranta erecta ~ Golden Dewdrop	36" HT after 1 year
Viburnum obovatum ~ Walter's Viburnum	36" HT after 1 year
Callicarpa americana ~ American Beautyberry	36" HT after 1 year
Zamia pumila ~ Coontie	36" HT after 1 year
Psychotria nervosa ~ Wild Coffee	36" HT after 1 year
Spartina bakerii ~ Cordgrass	36" HT after 1 year

Interconnectivity Standards

South Estero Center is a vehicular and pedestrian-friendly mixed-use community. This requires a planned access and sidewalks. Each element within the project will have interconnectivity between each other and when possible extend beyond the community (see attached diagram showing interconnectivity).
