Background

Preparation of Land Development Code (LDC)

December 31, 2014
**Village of Estero
Incorporated**
Lee County LDC adopted
as transitional LDC

Comprehensive Plan
prepared after much
work and public input
**Officially Approved
by State**
November 2019

Preparation of
new LDC started
as Plan approval
is completed
**Anticipated
Adoption**
January 2021

Background

What is a Land Development Code?

- The Land Development Code regulates development and sets standards for:
 - Landscaping
 - Architecture
 - Parking
 - Open space and similar items
 - Zoning rules
- How is the LDC different from the Comprehensive Plan?
 - The Comprehensive plan is a broad long range vision and policy document
 - The LDC is a technical document with detailed regulations

Background

Village objectives for new code

- New LDC is “right-sized” and tailored for the Village
 - 10 chapters versus 34 in transitional LDC
 - 8 appendices versus 15 in transitional LDC
 - 17 zoning districts versus 68 in transitional LDC
 - Reduced document length
- Presented in Simpler More User-Friendly Format
 - Increased use of explanatory tables, photos, and graphics
 - Revised structure

 - Based on Plan direction and current conditions:
 - Consolidates and simplifies some districts
 - Carries forward a few districts with refinements
 - Deletes some districts
 - Adds some new districts

3-303. RESIDENTIAL SINGLE FAMILY (RSF) DISTRICT*

A. Purpose

The purpose of the Residential Single-Family (RSF) District is to provide lands that accommodate primarily single-family detached dwellings on lots with a minimum area of 7,500 square feet. District regulations discourage development that substantially interferes with the quiet residential nature of the district.

[2] 20 local or private street, 25 collector or arterial.

^a As is discussed in the Code Assessment, the Residential Single Family-1 District in the transitional LDC is carried forward with modest refinements, and renamed Residential Single-Family (RSF) District. The district generally carries forward the district dimensional standards and makes minor refinements to the current uses (the changes involve deleting a few of the uses that are not consistent with district character (expansion of airport landing strips and helistops, mobile homes, and oil and gas excavation). The maximum density for development in the district is directed by the comprehensive plan.

^{ab} This use consolidates day care center, adult; and day care center, child; which have similar permissions.

^{ac} This use renames existing mobile home.

^{ad} Permissions change: E changes to S.

^{ae} This use renames existing "Parks group I"

^{af} This use replaces existing: schools, noncommercial: Lee County School District. The commercial/ noncommercial/ county distinction is removed.

^{ag} This use reorganizes utility uses, primarily including essential service facilities group I (Electric substations; natural gas or water regulation stations; pumping stations (excluding above-ground water storage facilities); communications, telephone and electrical distribution facilities up to 425 square feet in area and 10 feet in height; solar panels; transmission or metering stations).

^{ah} This is a new accessory use.
