Covid-19 Testing Partnership with Lab24

We appreciate your consideration in Lab24 for your COVID-19 testing needs. **Lab 24** is a Molecular Diagnostic Lab in South Florida. Lab 24 has over 30 years of experience in Molecular PCR testing. We are currently working with businesses across the nation providing a customized and full-concierge program providing COVID-19 PCR testing right in your community. With our full service program, we make it completely streamlined to put a testing program and protocols in place to ensure you are able to provide testing for your community.

First we assign an exclusive team together which includes:

- On-site licensed health care provider conducting sample collections
- Lab services for PCR Testing with 24-48 hour turnaround time (same day results in certain states)
- An Account Manager that will communicate all resulting and provide customer support

Our testing products-

- Collection Kit - FDA EUA Approved MedSchenker Smart Transport Medium with MedSchenker Nasopharyngeal
- Laboratory PCR Process and Instrument Testing is performed using a Thermo Fisher King Fisher (Extraction Instrument) Thermo Fisher QuantStudio 12k (PCR Instrument) *FDA EUA Approved*

Testing Statistics-

- Detection Rate (Sensitivity): 100%
- Specificity: 99.68%

With our highly trained, experienced staff, outstanding customer support and a laboratory that exceeds all relevant accreditations, Lab 24 is a leader in Laboratory testing throughout the nation.

Our goal is to facilitate testing for your communities while providing the highest level of care and deliver test results urgently. Because we understand the nature and exact needs of the homeowners, we are able to implement testing as a Concierge Service.

- We will honor the rate of \$120.00 test (our pricing for single tests is \$189.99)

We are dedicated to meet the growing needs of businesses during the Covid-19 pandemic and have a high level of understanding that they depend on us for accurate and reliable results by using the most advanced instruments as well as continually exploring new methods for the most cutting edge technology available.

It is our mission to work hand and hand with our clients; we understand the importance of accurate clinical laboratory testing in order to contain the virus within your communities. We look forward to handling all your testing needs and will be pleased to service your company!
