

CIP Project Summary - Roadway Improvements (13) Broadway Ave. E Street Lights

CIP Category: Street Lights
Funding Source: Gas Tax, General Fund

Design :	\$	12,900.00
Construction :	\$	135,500.00
Total:	\$	148,400.00

Project Description:

Install street lights along Broadway from US 41 to Sandy Lane

Project Justification:

The Bicycle and Pedestrian Master Plan recommends adding bicycle and pedestrian improvements along Broadway Ave. east of US41. Installation of street lights would improve roadway safety and allow bicycles and pedestrians to use the proposed bicycle and pedestrian improvements.

Maintenance:

The additional operation and maintenance costs associated with the street lights including power, general maintenance, and repair will be included in the Village's General Maintenance Budget.
