

CIP Project Summary Coconut Road Shared Use Path

CIP Category: Bicycle & Pedestrian

Design :	\$	324,000.00
Construction :	\$	910,800.00
Total:	\$	1,234,800.00

Project Description:

Expand the existing sidewalk on the south side of Coconut Road to a wider shared use path

Project Justification:

The Bicycle and Pedestrian Master Plan recommends a shared use path and sidewalk along Coconut Road. The narrow roadway width and limited right of way likely prevent the ability to install on street bike lanes or a sidewalk on the north side of Coconut Road. To improve bicycle and pedestrian access and safety along Coconut Road a wider shared use path is proposed along the south side of the road.
