

## CIP Project Summary

### Corkscrew Rd/Town Commons Signal

---

CIP Category: Intersection

Design :	\$	220,000.00
Construction :	\$	842,600.00
Total:	\$	1,062,600.00

**Project Description:**

Three commercial developments along Corkscrew Road have previously agreed to pay for the design, permitting, and installation of a traffic signal on Corkscrew Road at Puente Lane. To date the developers have not come forward to pay for the traffic signal. The Village of Estero has stepped in to pay for the design of the project. All costs incurred by the Village are expected to be reimbursed by the Developers.

**Project Justification:**

Traffic warrants for the installation of a traffic signal at Corkscrew Road and Estero Town Commons/Puente Lane have been met, according to Lee County DOT. Lee County has agreed to install the traffic signal after developer payments have been received. This traffic signal is expected to improve safety by allowing vehicles to enter Corkscrew Road at a controlled intersection and allow the elimination of left turns out of Corkscrew Woodlands Blvd.
