

CIP Project Summary
Corkscrew/US-41 Intersection Improvements

CIP Category: Intersection

Design :	\$	127,300.00
Construction :	\$	265,200.00
Total:	\$	392,500.00

Project Description:

Construct a second westbound to north bound right turn on Corkscrew Road. Turn lane length is expected to match the existing left turn lane length.

Project Justification:

The Village Wide Traffic Study recommends this turn lane improvement to increase traffic capacity at US-41 and Corkscrew Road.
