

CIP Project Summary El Dorado Roundabout

CIP Category: Intersection

Design :	\$	307,500.00
Construction :	\$	662,400.00
Total:	\$	969,900.00

Project Description:

Construct a roundabout at the intersection of Coconut Road and El Dorado Blvd.

Project Justification:

The Coconut Road Traffic Study recommends the installation of three roundabouts (Coconut Shores, Meadowbrook and El Dorado) along Coconut Road, west of US-41. As traffic along Coconut Road increases with future development, making southbound left turns (the predominate movement at each intersection) onto Coconut Road will be more difficult. The Coconut Shores, Meadowbrook and El Dorado entrance are expected to fail. Roundabouts were recommended to improve these intersections, allowing vehicles and pedestrians to more safely cross Coconut Road.
