

## CIP Project Summary Estero Parkway Improvements

---

CIP Category: Roadway

Design :	\$	757,724.00
Construction :	\$	8,970,516.00
Total:	\$	9,728,240.00

**Project Description:**

Construct the following improvements along Estero Parkway from US-41 to Three Oaks Parkway

- Road resurfacing
- Addition of 7-ft buffered bike lane (striping)
- Concrete curb along a portion of roadway
- Sidewalks along both sides of road
- Intersection improvements
- Drainage improvements
- Landscape Improvements
- Street Lighting
- Utility relocation as needed

**Project Justification:**

As outlined in FGCU's Road Conditions Study, the existing Estero Parkway roadway surface is in poor conditions and in desperate needs to resurfacing. Resident are not able to walk, run or bike along the roadway due to the lack of continuous bicycle and pedestrian facilities. These improvements are required provide an adequate roadway surface and safe bicycle and pedestrian facilities.
