

CIP Project Summary

River Ranch Road Improvements

CIP Category: Roadway

Design :	\$	618,000.00
Construction :	\$	1,535,100.00
Total:	\$	2,153,100.00

Project Description:

Roadway, drainage and bicycle/pedestrian improvements along River Road to include the following:

- Resurfacing
- Widening to add shoulders
- Sidewalks & crosswalks
- Drainage improvements
- Estero High turn lane improvements
- Williams Road Intersection Improvements.

Project Justification:

River Ranch Road was identified in the Bicycle & Pedestrian Master Plans and Stormwater Master Plan as requiring improvements. In addition, Estero High School creates traffic issues that could be improved by roadway and intersection modifications. The project will address several issues that impact River Ranch Road including; reducing flooding by implementing drainage improvements; increase bike and pedestrian safety by adding sidewalks and/or bike paths; improve traffic flow around Estero High School to reduce impact seen during student drop off and pick up.
