

## CIP Project Summary SUN Trail North

---

CIP Category:   Bicycle & Pedestrian

Design :	\$	816,000.00
Construction :	\$	3,537,200.00
Total:	\$	4,353,200.00

**Project Description:**

The construction of an off roadway multi-use pathway on the existing Seminole Gulf Railway right of way from Estero Parkway, north to the Village's northern limit. Project costs do not include land or easement acquisition. That is budgeted separately.

Construction will require two bridge crossings. One over Vintage Trace Circle and one over the Vines County Club cart path. The two bridges through the Vines Community will be designed to prevent access from the trail to the Community.

Construction of these improvements north of Estero Parkway must occur in conjunction with similar improvements in Unincorporated Lee County north of the Village boundary.

**Project Justification:**

The Village of Estero Bike/Ped Master Plan identified the lack of off roadway bicycle and pedestrian facilities as a weakness for Estero. The Master Plan recommends the construction of a major off roadway bicycle and pedestrian corridor along the existing railroad to improve the bicycle and pedestrian experience and safety in Estero.
