| Construction : | \$ | 5,227,200.00 |
| Total: | \$ | 5,552,200.00 |

Project Description:

Enhance existing landscaping along Three Oaks Parkway from Estero Parkway to the Brooks.

Project Justification:

Three Oaks Parkway is one of the major roadways in Estero and portions of the roadway currently only has limited landscaping. Beatification of the roadway is important to better identify Estero. Additional landscaping is needed to meet landscaping expectations and standards set by other roadways within Estero. Additional landscaping will provide traffic calming, provide shade for pedestrians and improve aesthetics.
