

CIP Project Summary  
Trailside Drainage Improvements

---

CIP Category: Stormwater

Design :	\$	114,000.00
Construction :	\$	1,073,900.00
Total:	\$	1,187,900.00

Project Description:

Improve drainage within the Trailside community by regrading swales and ditches and replacing drainage culverts.

Project Justification:

To improve flood protection in the Trailside Community, the Village's Stormwater Master plans recommends improving the roadside drainage to Broadway West.
