

CIP Project Summary
Utility Corridor Shared Use Path (West US-41)

CIP Category: Bicycle & Pedestrian

Design :	\$	852,000.00
Construction :	\$	3,189,800.00
Total:	\$	4,041,800.00

Project Description:

Construction of a shared use path along the utility corridor located west of US-41. The path could extend from Bonita Springs to Broadway W.

This project will require extensive coordination with the residents and communities along the corridor before the project can move forward. Portions of the project are located on private property.

Project Justification:

The Village of Estero Bike/Ped Master Plan identified the lack of off roadway bicycle and pedestrian facilities as a weakness for Estero. Construction of a major off roadway bicycle and pedestrian corridor along the existing utility corridor would provide an alternative to on-roadway facilities. This project would improve bicycle/pedestrian access and safety.
