

CIP Project Summary

Via Coconut Point Landscape Improvements

CIP Category: Landscape

Design :	\$	276,000.00
Construction :	\$	2,509,100.00
Total:	\$	2,785,100.00

Project Description:

Master plan Via Coconut Point Landscaping and install landscaping from Coconut Road to Williams Road.

Project Justification:

Via Coconut Point is mostly un-landscaped, with the exception of the area adjacent to Genova. Additional landscaping is needed along Via Coconut Point to meet landscaping expectations and standards set by other roadways within Estero. Additional landscaping will provide traffic calming, provide shade for pedestrians and improve aesthetics. A master plan is required to create a consistent plan for landscaping the entire roadway. The Village of Estero will install the landscaping from Williams Road to Coconut Road. It is anticipated, adjacent developments will install the remaining landscaping.
