

NOTICE OF FEE REVISIONS

A new Community Development Fee Schedule was approved by the Village Council on September 17th and will be effective on Wednesday, October 1, 2025. Fees for building, planning, zoning and land development applications have all been updated.

Fees have not been revised in 10 years, and the increases are intended to offset the cost of review and inspections.

Any building permits not issued by close of business on September 30th will be assessed the new fees.

Please note that impact fees remain unchanged.
