

Estero debris pick up winding down in areas not impacted by Storm Surge

The Village's debris hauler Crowder Gulf will be making one final pass through the Village to pick up any remaining residential storm debris. The Village will not be driving through each community to locate storm debris. If you have storm debris ready for pick up, please email Carla Nebbia at nebbia@estero-fl.gov or call (239) 221-5035.

The final day for debris pickup is **Monday December 12th**.

Separate debris into two separate piles:

1. Construction and Demolition
2. Vegetation

No plastic bags in either pile.

Any non-storm debris should be placed at your curb for regular pick up by Lee County Solid Waste.

Note: This does not apply to any area that experienced storm surge flooding. The Village will continue picking up debris in those areas past December 12th.
