Upon receipt of a Formal Protest the Village Manager will forward such protest to the Village Attorney, who shall review the protest and prepare findings of fact and conclusions as to the validity of the protest within 10 calendar days of its receipt and provide that decision to the protestor. - Predecessors & Successors; and
- Highlighted Critical Path for the entire Project from start to finish.

An updated CPM Schedule acceptable to the Village must be submitted seven (7) calendar days before each monthly pay request. The updated CPM Schedule must show actual construction progress, actual start/completion dates for work items, any changes necessary to show completion of the Project within the contract time limits, current start/completion dates for work items not yet completed, and a highlighted critical path for the completion of the remainder of the Project. The updated CPM Schedule must be accepted by the Village before the monthly pay request will be approved.

C. Liquidated Damages. Village and Contractor recognize that, since time is of the essence for this Project, the Village will suffer financial loss if the work is not substantially completed within the time specified in the Contract Documents, as said time may be adjusted as provided for herein. Should Contractor fail to achieve completion of the work within the time periods prescribed, Village shall be entitled to assess, as liquidated damages, but not as a penalty, an amount as

determined by the below table for each calendar day thereafter until completion is achieved. Contractor hereby expressly waives and relinquishes any right which it may have to seek to characterize the above noted liquidated damages as a penalty, which the parties agree represents a fair and reasonable estimate of Village's actual damages at the time of contracting if Contractor fails to substantially complete the work in a timely manner. Notwithstanding anything to the contrary contained herein, "Completion" shall be defined as a level of completion in compliance with the Contract Documents as certified in writing by Village's Manager and recommended by the engineer such that the Village has use of the Project and can operate the Project in all respects for its intended purpose. Any such liquidated damages may, at the option of the Owner, be withheld and deducted from any unpaid portion of the Contract Sum.

Applicable Liquidated damages are the amounts established in the following schedule:

CONTRACT AMOUNT			DAILY CHARGE PER CALENDAR DAY
\$50,000 and under			\$956
Over \$50,000	But less than	\$ 250,000	\$964
\$250,000	But less than	\$500,000	\$1241
\$500,000	But less than	\$2,500,000	\$1665
\$2,500,000	But less than	\$5,000,000	\$2712
\$5,000,000	But less than	\$10,000,000	\$3447
\$10,000,000	But less than	\$15,000,000	\$4866
\$15,000,000	But less than	\$20,000,000	\$5818
\$20,000,000	And over		\$9198 plus 0.00005 of any amount over \$20 million

D. Progress Payments. Contractor shall submit two (2) copies of its monthly Application for Payment to the Project Manager. Within fifteen (15) calendar days after receipt of each Application for Payment, the Village Manager shall either: (1) indicate its approval of the requested payment; (2) indicate its approval of only a portion of the requested payment, stating in writing its reasons therefor; or (3) return the Application for Payment to Contractor indicating, in writing, the reason for refusing to approve payment. Payments of proper invoices shall be processed in accordance with the Local Government Prompt Payment Act, Section 218.70, F.S., and the administrative procedures as established by the Village.

Village will retain five percent (5%) of the gross amount of each monthly payment request or five percent (5%) of the portion thereof approved by the Village Manager for payment, whichever is less. The Village will promptly make payment to Contractor, unless the Village has grounds for withholding the payment of retainage and such sum shall be accumulated and not released to Contractor until final payment is due unless otherwise agreed to by the Village. The Village Manager shall have the discretion to establish, in writing, a schedule to periodically reduce the percentage of cumulative retainage held throughout the course of the project schedule. Monthly payments to Contractor shall in no way imply approval or acceptance of Contractor's work.

Each Application for Payment shall be accompanied by a Release and Affidavit, in the form approved by the Village clearly showing that all materials, labor, equipment and other bills associated with that portion of the Work payment is being requested on have been paid in full. The Village shall not be required to make payment until and unless these affidavits are furnished by Contractor.

Each Application for Payment shall include back-up documentation related to the purchase of plant material in the form of verification of payment to the nursery (vender) and documentation of the order with shipment date shown.

E. Provisions for Convenience of Public: The Contractor will schedule his operations so as to minimize any inconvenience to adjacent businesses or residences. Where necessary, the Village may require the Contractor to construct first the work in any areas along the Project where restrictions caused by construction operations would present a more serious handicap, before beginning construction in the less affected areas.

GP-03 CONTROL OF THE WORK AND MATERIALS

A. Plans and Contract Documents: The Contractor will be furnished up to four (4) copies of the Plans, Technical Specifications & Conditions, General and Special Provisions as required for the Project. The Contractor shall have available on the job site at all times copies of the Plans (including relevant Design Standards), Technical Specifications & Conditions, General and Special Provisions available to the Village or its representatives.

B. Detail Drawings and Instructions: The Village may furnish, with reasonable promptness, additional instructions by means of drawings or otherwise, necessary for the proper execution of the work. All such drawings and instructions shall be consistent with the Contract Documents, true developments thereof, and reasonably inferable therefrom.

C. Order of Precedence: These documents are integral parts of the Contract, and a requirement occurring in one is as binding as though occurring in all. They are intended to be complementary and to describe and provide for a complete work.

In cases of discrepancy, the governing order of the documents will be as follows:

1. Permits from Agencies as required by law;
2. Change Orders;
3. Contract Documents including Addenda but excluding Construction Plans and FDOT Standard Specifications;
4. Construction Plans;
 - a. Dimensions given in figures govern over scaled dimensions;
 - b. Detail drawings govern over general drawings;
 - c. Addenda or Change Order drawings govern over Contract drawings.
5. FDOT Standard Specifications.

D. Conformity of Work with Plans: All work performed and all materials furnished shall be in reasonably close conformity with lines, grades, cross sections, dimensions, and material

requirements, including tolerances, shown on the Plans or indicated in the Technical Specifications & Conditions or Special Provisions.

E. Authority of the Village: All work must be done under the supervision of the Village and performed to its satisfaction. It is agreed by the parties hereto that the Village will decide all questions and disputes which may arise relative to the interpretation of the plans, construction, prosecution, and fulfillment of the Contract, and as to the character, quality, amount, and value of any work done, and materials furnished, under or by reason of the Contract.

F. Village's Status: The Village will examine and inspect the work to assure compliance with the requirements of these Contract Documents. The Village will determine the quality and acceptability of materials and workmanship relative to the requirements of the Plans and Technical Specifications & Conditions. In instances where the Contractor is not in compliance with the requirements of the Contract or when the quality and materials are not acceptable to the Village, then the Village has the authority as follows:

1. to stop the work whenever such stoppage may be necessary to insure the proper execution of the Contract;
2. to reject all work which does not conform to the Contract or when materials of shop drawings have not been approved prior to placement;
3. to resolve questions which arise in the execution of the work; and
4. to stop work whenever such stoppage may be necessary to insure the safety of personnel or the public.

No additional time or compensation will be added to the Contract when stopping work for the above listed reasons

The Village and its representatives must at all times have access to the work wherever it is in preparation or progress and the Contractor must provide proper facilities for such access and for inspection. If the Technical Specifications & Conditions, the Village's instruction, laws, ordinances or any public authority require any work to be specially tested or approved, the Contractor must give the Village timely notice of its readiness for inspection and, if the inspection is by an authority other than the Village, the date fixed for such inspection. Inspections by the Village shall be promptly made and, where practicable, at the source of supply.

The Village's representatives will be authorized to inspect all work done and all materials furnished. They are authorized to call to the attention of the Contractor any failure of the work or materials to conform to the Technical Specifications & Conditions and Contract, and shall have the authority to reject materials or suspend the work until any questions at issue can be referred to and resolved by the Village. The presence of the Village representatives will in no way lessen the responsibility of the Contractor.

If any work should be buried or otherwise covered up without approval or consent of the Village, it must, if required by the Village, be uncovered for examination at the Contractor's expense. Re-

examination of questioned work may be ordered, and the work must be uncovered by the Contractor.

G. Suspension of Work: The Village has the right to suspend all or any portion of the work upon giving the Contractor not less than two (2) calendar days' prior written notice of such suspension. If all or any portion of the work is so suspended, the Contractor's sole and exclusive remedy shall be to seek an extension of time to its schedule in accordance with the procedures set forth in the contract documents. In no event will the Contractor be entitled to any additional compensation or damages. Provided, however, if the ordered suspension exceeds ninety (90) calendar days, the Contractor shall have the right to terminate the Agreement with respect to that portion of the work which is subject to the ordered suspension.

H. The Village's Right to do Work: If the Contractor should neglect to prosecute the work properly or fail to perform in accordance with provisions of the Contract, the Village, after three (3) days written notice, may without prejudice to any other remedy it may have, make good any deficiencies and deduct the cost from the payment due the Contractor.

I. Village's Decision: The Village shall, within a reasonable time after their presentation, make decisions in writing on claims by the Contractor and on all other matters relating to the execution and progress of the work or the interpretation of the Contract Documents.

J. Contractor's Supervision and Employees: The Contractor will supervise, inspect, and direct the work completely and efficiently, devoting such attention thereto and applying such skills and expertise as may be necessary to perform the work in accordance with the Contract Documents.

Unless otherwise identified in the Contract Documents, the Contractor will be solely responsible for the means, methods, techniques, sequence, and procedures necessary for the orderly progress of the work, and to maintain all safety precautions and programs incidental thereto. The Contractor must at all times enforce strict discipline and good order among its employees, and shall not employ any unfit person or anyone unskilled in the work assigned to them. The Contractor will be responsible to see that the completed work complies fully with the Contract Documents.

As the work progresses, the Contractor will keep on the job at all times an English-speaking Superintendent or designee, technically qualified, who is an employee of the Contractor and who will not be replaced without written notice and approval from the Village. The Superintendent will be the Contractor's representative on the job and must have authority to act on behalf of the Contractor. The Superintendent or their qualified designee must be present at the job site and direct the work of sub-contractors, as well as employees of the Contractor. The Superintendent will be equipped with a communication device enabling them to contact suppliers, sub-contractors or their office who in turn can convey necessary communications to others. All communications given to the Superintendent shall be as binding as if given to the Contractor. The Contractor shall issue all communications to the Village or its representatives.

The Contractor's Superintendent shall be present on the job site at all times while work is in progress, and shall be available by phone for emergencies twenty-four (24) hours per day, seven

(7) days per week. Failure to observe this requirement shall be considered suspension of the work by the Contractor until such time as such Superintendent is again present on the job.

K. Daily Reports: Unless waived in writing by the Village, the Contractor shall complete and submit to the Village on a weekly basis a daily log of the Contractor's work for the preceding week in a format approved by the Village. The daily log shall document all activities of the Contractor at the Project site including, but not limited to, the following:

- Weather conditions showing the high and low temperatures during work hours, the amount of precipitation received on the Project site, and any other weather conditions which adversely affect the work;
- Soil, rock, subsurface or other conditions which adversely affect the work;
- The hours of operation by Contractor's and any subcontractor's personnel;
- The number of Contractor's and subcontractor's personnel present and working at the Project site, by subcontractor and trade;
- All equipment and vehicles present at the Project site, description of equipment and vehicle use and designation of time the equipment and vehicles were used (specifically indicating any down time);
- Description of work being performed at the Project site;
- Any unusual or special occurrences at the Project site;
- Materials received at the Project site;
- A list of all visitors to the Project site; and
- Any problems that might impact either the cost or quality of the work or the time of performance.

The daily log shall not constitute nor take the place of any notice required to be given by the Contractor to the Village pursuant to other sections of the Contract Documents.

L. Contractor's Understanding: It is understood and agreed that the Contractor has, by careful examination and prior to submitting a bid, satisfied itself as to the nature and location of the work; the conformation of the ground and subsurface; the character, quality, and quantity of the materials to be encountered; the character and quantity of equipment, vehicles and facilities needed prior to and during prosecution of the work; the general and local conditions including environmental and climatic conditions; and other matters which can affect the work under the Contract, and that the same are in conformance with the Bid documents. If an underground facility or differing site condition is uncovered or revealed at or contiguous to the site, which was not shown or indicated and of which the Contractor could not reasonably have been expected to be aware, the Contractor shall promptly, before performing any work (excepting in emergencies), identify the owner of such underground facility and give written notice thereof to that owner and to the Village. The Village will review the underground facility or differing condition to determine the extent to which the Documents should be modified. With Village approval, the Contract Documents will be amended or supplemented to the extent necessary and the Contractor shall be allowed an increase or an extension of time, or both, to the extent that they are attributable. During such review, the Contractor shall be responsible for the safety and protection of such underground facility. Any work done after such discovery without specific authorization by the Village will be done at the Contractor's risk. Failure of the Contractor to fully examine and acquaint itself with any and all

applicable conditions shall not relieve the Contractor from any of its responsibilities to perform under the Contract documents. Failure to report differing site conditions to the Village prior to beginning work, or undertaking additional activities without proper authorization of the Village, shall not be considered the basis for any claim for additional time or compensation due to differing or unexpected site conditions or errors in the bid documents. No verbal agreement or conversation with any officer, agent, or employee of the Village, either before or after execution of the Contract, shall affect or modify the terms or obligations herein contained.

M. Permits and Regulations: Permits and licenses necessary for the prosecution of the work shall be secured and paid for by the Contractor, unless otherwise specified. The Contractor shall give all notices and comply with all laws, ordinances, rules, and regulations bearing on the conduct of the work as drawn and specified. If the Contractor observes that the specifications and drawings are at variance therewith, he shall promptly notify the Village in writing, and any necessary changes shall be adjusted as provided in the Contract for changes in the work. If the Contractor performs any work knowing it to be contrary to such laws, ordinances, rules, and regulations, and without such notice to the Village, he shall bear all costs arising therefrom.

N. Protection of Work and Property: The Contractor shall continuously maintain protection of all his work from damage and shall protect the Village's property from injury or loss arising in connection with the Contract. Contractor shall make good on any such damage, injury or loss, except such as may be directly due to errors in the Contract Documents or caused by agents or employees of the Village. Contractor shall adequately protect adjacent property as provided by law and the Contract Documents. Contractor shall provide and maintain all passageways, guard fences, lights, and other facilities for protection required by public authority or local conditions. In an emergency affecting the safety of life or of the work, or of adjoining property, the Contractor, without special instruction or authorization from the Village, is hereby permitted to act, at Contractor's discretion, to prevent such threatened loss or injury, and Contractors shall so act, without appeal, if so instructed or authorized. Any compensation claimed by the Contractor on account of emergency work shall be determined by agreement between the Contractor and the Village.

The Contractor shall not occupy private land outside of any easements or rights of way unless a written authorization has been signed by the property owner. It shall be the Contractor's responsibility to provide these agreements prior to construction, if required. Prior to the use of private lands, the Contractor shall submit a copy of the agreement(s) to the Village.

Prior to application for final payment, the Contractor shall provide documentation from the owner of each piece of private property for which an agreement for use was provided, or for which the Village has issued written notification to the Contractor, that each owner is satisfied with the manner in which the Contractor has restored the property. Final payment or retainage shall not be paid until such documentation is received by the Village.

O. Changes in the Work: The Village, without invalidating the Contract, may order extra work or make changes by altering, adding to or deducting from the work, the Contract sums due being adjusted accordingly. Such work shall be executed under the conditions of the original Contract.

The change and amount of compensation must be agreed upon in writing in a document of equal dignity herewith prior to any deviation from the terms of the Contract.

In giving instructions, the Village shall have authority to make minor changes in the work, not involving extra cost, and not inconsistent with the purposes of the work. Except in an emergency endangering life or property, no extra work or change shall be made unless in pursuance of a written order by the Village. No claim for an addition to the Contract sum previously due shall be valid unless ordered and under no circumstances shall the Village be liable to the Contractor for any increased compensation without such written order. Value of any such extra work or change shall be determined in one or more of the following ways:

1. By estimate and acceptance in a lump sum;
2. By unit prices named in the Contract or subsequently agreed upon; or
3. By cost and percentage or by cost and a fixed fee.

If none of the previous methods are agreed upon, the Contractor, provided he receives an order as above, shall proceed with the work. In such case and also under case (3), Contractor shall keep amendment in such form as the Village may direct, a correct account of the net cost of labor and materials, together with vouchers. The Village shall certify to the amount, including reasonable allowance for overhead and profit, due to the Contractor. Pending final determination of value, no payment on changes shall be made.

When requiring a change in the scope of services, the Contractor shall notify the Village by written notice that a change order is requested within five (5) calendar days of any occurrence.

P. Deductions for Uncorrected Work: If the Village deems it inexpedient to correct work injured or done not in accordance with the Contract, an equitable deduction from the Contract price shall be made thereof.

Q. Contract Time Extensions: Should Contractor be obstructed or delayed in the prosecution of or completion of the work, whether to a controlling item of work identified in the most current approved CPM Schedule or otherwise, as a result of unforeseeable causes beyond the control of the Contractor and not due to its fault or neglect, including but not limited to acts of God or of the public enemy, acts of government, fires, floods, epidemics, quarantine, regulations, strikes or lockouts, acts or failures to act of any public or private utility, or any other cause, then the time for completion shall be extended for such reasonable time as the Village may decide. Contractor shall notify the Village in writing within seven (7) calendar days after the commencement of such delay, stating the date the delay began, the cause or causes thereof and the controlling item of work affected by the delay, if applicable. If the Contractor does not notify the Village in writing within seven (7) calendar days, the Contractor fully, completely, absolutely and irrevocably waives any entitlement to an extension of Contract time for that delay.

The existence of an updated accepted CPM Schedule, as required, is a condition precedent to the Contractor having any right to an extension of Contract time arising out of any delay to a Critical Path item. If the Contractor has not submitted or updated the CPM Schedule as required for the period of delay, or if the current accepted Schedule does not accurately reflect the actual status of

the Project or fails to accurately show the true controlling or noncontrolling work activities for the period of delay, then entitlement to, or the length of any time extension will be determined solely by the Village, which determination shall be final.

No Damages for Delay - No interruption, interference, inefficiency, suspension or delay in the commencement or progress of the work from any cause whatsoever, including those for which the Village may be responsible, in whole or in part, shall relieve the Contractor of its duty to perform or give rise to any right to damages or additional compensation from the Village. The Contractor expressly acknowledges and agrees that it shall receive no damages for delay. The Contractor's sole remedy, if any, against the Village will be the right to seek an extension to the Contract time. This paragraph shall expressly apply to claims for early completion as well as to claims based on late completion.

R. Correction of Work Before Final Payment: All work, all materials, whether incorporated in the work or not, all processes of manufacturer, and all methods of construction shall be at all times and places subject to the inspection of the Village who shall be the final judge of the quality and suitability of the work, materials, processes of manufacture, and methods of construction for the purposes for which they are used. Should they fail to meet Village approval, they shall be forthwith reconstructed, made good, replaced, or corrected, as the case may be, by the Contractor at its own expense. Rejected material shall be immediately removed from the site. If, in the opinion of the Village, it is undesirable to replace any defective or damaged materials or to reconstruct or correct any portion of the defective or unsuitable work not performed in accordance with the Contract Documents, the compensation to be paid to the Contractor hereunder shall be reduced by such amount as in the judgment of the Village shall be equitable.

S. Contractor's Right to Stop Work or Terminate Contract: If the work should be stopped under an order of any court or other public authority for a period of three (3) months, through no act or fault of the Contractor or of anyone employed by him, or if the Village fails to pay the Contractor within thirty (30) calendar days of maturity and presentation any sum certified by the Village, then the Contractor may, upon seven (7) calendar days written notice to the Village, stop work or terminate the Contract.

T. Removal of Equipment: In the case of termination of the Contract before completion from any cause whatever, the Contractor, if notified to do so by the Village, shall within five (5) business days remove any part or all of its equipment and supplies from property of the Village or site of work, failing which the Village has the right to remove such equipment and supplies at the Contractor's expense.

U. Use of Completed Portions: The Village has the right to take possession of and use any completed or partially completed portions of the work, notwithstanding the time for completing the entire work of such portions may not have expired, but taking possession and use shall not be deemed an acceptance of any work not completed in accordance with the Contract Documents. If such prior use increases the cost of or delays the work, the Contractor shall be compensated as the Village may determine and the Village approves.

V. Payments Withheld: The Village may withhold payment to the Contractor on account of:

1. Defective work not remedied;
2. Failure of the Contractor to make payment properly to Subcontractor or for material or labor;
3. A reasonable doubt that the Contract can be completed for the balance then unpaid;
4. Damage to another contractor; or
5. Failure to submit an approved updated CMP Schedule.

When the above grounds are removed, payment shall be made for amounts withheld because of them.

W. Claims and Disputes: A “Claim” is a demand or assertion by the Contractor seeking an adjustment or interpretation of the terms of the Contract documents, payment of money, extension of time or other relief arising out of or relating to the Contract documents, except damages for delays, for which there is no right to claim damages.

The Contractor is fully responsible to substantiate Claims. A decision shall be required as a condition precedent to any exercise by the Contractor of any rights or remedies under the Contract Documents or by laws and regulations in respect of such Claims. The procedure for making a Claim is as follows:

1. Notice of Claim. Claims must be initiated by written notice to the Village Manager not later than seven (7) days after the first occurrence of the event giving rise to such Claim. Claims not timely submitted shall be deemed waived.
2. Continuing Contract Performance. Pending final resolution of a Claim, except as otherwise agreed in writing, the Contractor shall proceed diligently with performance of the contract in accordance with the Contract Documents. A Change Order will be timely issued in accordance with the decisions of the Claim.
3. Claims for Additional Cost. If the Contractor wishes to make a Claim for an increase in the Contract sum due, written notice as provided herein shall be given before proceeding to execute the work. Prior notice is not required for Claims relating to an emergency endangering life or property. It is the Contractor’s responsibility to present all data and information in support of a Claim. Unsupported claims may not be considered.
4. Claims for Additional Time. If the Contractor wishes to make a Claim for an increase in the Contract timelines, written notice as provided herein shall be given. The Contractor’s Claim shall include an estimate of cost and of probable effect of delay on progress of the work. In the case of a continuing delay, only one Claim is necessary. If adverse weather conditions are the basis for a Claim for additional time, such Claim shall be documented by data substantiating that weather conditions were abnormal for the period of time could not have been reasonably anticipated and had an adverse effect on the scheduled construction. Unsupported claims will not be considered.
5. Decision. Claims shall be referred to the Village and shall be reviewed and considered by the Village upon consultation with the project architect and/or engineer as may be reasonably necessary to make a decision. The Village will review timely filed and properly documented Claims within twenty (20) days of the receipt of a Claim and take one or more of the following actions: (1) request additional supporting data from the claimant or a

response with supporting data from another party, (2) reject the Claim in whole or in part, (3) approve the Claim, (4) suggest a compromise, or (5) advise the Village is unable to resolve the Claim if sufficient information to evaluate the merits of the Claim is not available.

In evaluating Claims, the Village may, but shall not be obligated to, consult with or seek information from other parties and may make the decision based solely on the information provided by the Contractor in the support of the Claim. If a request to furnish additional supporting data is made, a response is due within three (3) business days after receipt of such request. Upon receipt of the response or supporting data, if any, the Village will either reject or approve the Claim in whole or in part.

X. Assignment: Neither party to the Contract shall assign the Contract or sublet it as a whole without the written consent of the other, nor shall the Contractor assign any monies due or to become due to him hereunder without the previous written consent of the Village.

Y. Rights of Various Interests: Before work being done by the Village's forces or by other Contractor's forces, contiguous to work covered by the Contract, the respective rights of the various interests involved shall be established by the Village before such commencement, to secure the completion of the various portions of the work in general harmony.

Z. Separate Contracts: The Village reserves the right to let other Contracts in connection with this work. The Contractor shall afford other Contractors reasonable opportunity for the introduction and storage of their materials and the execution of the work, and shall properly connect and coordinate its work with theirs. If any part of the Contractor's depends on proper execution or results upon the work of any other Contractor, the Contractor shall inspect and promptly report to the Village any defects in such work that render it unsuitable for such proper execution and results. Contractor's failure to so inspect and report shall constitute an acceptance of the other Contractor's work as fit and proper for the reception of its work, except as to defects which may develop on the other Contractor's work after the execution of its work.

AA. Subcontractors: The Contractor shall provide a list of subcontractors with his bid for approval. The Contractor agrees that he is as fully responsible to the Village for the acts and omissions of his subcontractors and of persons either directly or indirectly employed by them as Contractor is for the acts and omissions of persons directly employed by it. Nothing contained in the Contract Documents shall create any contractual relation between any subcontractor and the Village. Substitutions must be submitted in writing and shall be subject to approval by the Village.

To insure proper execution of his subcontractor's work, the Contractor shall measure work already in place and shall at once report to the Village any discrepancy between the executed work and the drawings.

BB. Horizontal and Vertical Control: Unless noted otherwise in the Contract documents, the Contractor shall be responsible for the layout of all Contract work. The Contractor shall employ or retain any and all professional services that are required by the Contract to complete the work. The Contractor shall carefully preserve benchmarks, reference points and stakes and, in case of

willful or careless destruction, be responsible for any mistakes that may be caused by their unnecessary loss or disturbance.

CC. Lands for Work: The Village shall provide the lands upon which the work under the Contract is to be done, except that the Contractor shall provide land required for the erection of temporary construction facilities and storage of materials, together with the right of access to same.

DD. Cleaning Up: The Contractor shall, at such times as may be required by the Village, remove from the Village's property and from all public and private property, at its own expense, all temporary structures, used materials and equipment, rubbish and waste materials resulting from its operations. All damaged areas will be restored by the Contractor to their original condition and approved by the Village. By submission of a bid, the Contractor assumes full responsibility for the associated expenses. There shall not be an increase in time or price associated with such removal, and payment to Contractor may be withheld until such work is completed.

EE. Guarantee: The Contractor shall warrant all equipment furnished and work performed by him for a period of one (1) year from the date of final acceptance of the work by the Village or as may be otherwise specified. Any faulty work or equipment will be fully corrected at no cost to the Village and restored work will be warranted for one (1) year from the date of acceptance, or as may be otherwise specified. The Contractor shall repair or replace defective work or materials no later than (30) days from the Contractor's receipt of written notice from the Village.

The making and acceptance of final payment shall not waive any claim for faulty work appearing after final payment or for failure to adhere strictly to the Contract Documents. If any part of the project is guaranteed for a longer period, such longer period shall prevail. Except as otherwise specified, all work shall be guaranteed by the Contractor against defects resulting from use of inferior materials, equipment or workmanship for one (1) year from the date of substantial completion or written acceptance by the Village, whichever is later.

FF. Utilities:

1. Responsibility Regarding Existing Utilities and Structures: The Contractor shall be solely and fully responsible for getting all utility locates, sequencing his work to minimize conflicts with all utilities, coordinating with utilities as necessary regarding location, relocation or removal, and making necessary field adjustments, approved by Village engineer(s) to accommodate utilities. The existence and location of underground utilities indicated on the plans are not guaranteed and shall be investigated and verified in the field by the Contractor before submitting a bid. Excavation in the vicinity of existing structures and utilities shall be done by hand. The Contractor shall be responsible for any damage to, and for maintenance and protection of, existing utilities and structures, and from any damages resulting from said excavation. The Contractor is to include within his line item bid prices, the costs to protect, support, relocate, or move (whether shown or not shown on the proposed project set of plans) all underground utilities which may be in conflict with the construction of the proposed project, and to include sufficient time for the location, relocation or removal of utilities and underground utilities within the proposed Project timeline. The Contractor expressly acknowledges and agrees that it shall receive no damages for any delays associated with the location, relocation or removal of utilities or

underground utilities. The Contractor's sole remedy, if any, against the Village will be the right to seek an extension to the Contract time.

2. Cooperation with Utilities: Attention is called to the Underground Facility Damage Prevention and Safety Act, Chapter 556, Florida Statutes. This act provides for a "Sunshine State One Call" which is to be used by all parties doing excavation, demolition or other underground construction. The Contractor is required prior to any excavation to notify "SUNSHINE STATE ONE CALL OF FLORIDA (800-432-4770)

GG. Accidents: The Contractor shall provide equipment and medical facilities as necessary to supply first aid to anyone who is injured in connection with the work. The Contractor must promptly report in writing to the Village accidents arising out of, or in conjunction with, the performance of the work, whether in, or adjacent to, the site, which cause death, personal injury, or property damages, giving full details and statements of witnesses. If death or serious injuries or serious damages are caused, the accident shall be reported immediately by telephone or messenger to the Village.

If a claim is made by anyone against the Contractor or Subcontractor on account of an accident, the Contractor shall promptly report the facts in writing to the Village, giving full details of the claim.

HH. Stage Plans: Stage plans of structural alterations, cofferdams, dredging, furnished or approved by the Village, shall be adhered to unless objected to in writing by the Contractor, but the submission or approval of stage plans by the Village shall not relieve the Contractor of full responsibility for the safety of the work.

II. Measurement of Quantities: Where applicable, the quantities of materials and work performed will be computed by the Village on the basis of measurements taken by the Village or its agents, and these measurements shall be final and binding. All materials and work computed under the Contract shall be measured by the Village according to the United States Standard Measurements and Weights.

The Village does not assume any responsibility that the final quantities will remain in accord with estimated quantities, nor shall the Contractor claim misunderstanding or deception because of such estimate of quantities. The estimated quantities of work to be done and materials to be provided may be increased, decreased, or omitted, as provided herein. Any increase in quantities shall be approved by the Village prior to any work.
