Florida Statutes § 287.135 and Florida Statutes § 215.4725 also prohibit Florida municipalities from contracting with companies, for goods or services in any amount that are on the list of Scrutinized Companies that Boycott Israel.

The list of “Scrutinized Companies” is created pursuant to Florida Statutes § 215.473. A copy of the current list of “Scrutinized Companies” can be found at the following link:

<https://www.sbafla.com/fsb/FundsWeManage/FRSPensionPlan/GlobalGovernanceMandates/QuarterlyReports.aspx>

The company representative authorized to sign on behalf of the bidder/proposer, hereby CERTIFIES that the company identified as the Proposer is not listed on either the Scrutinized Companies with Activities in Sudan List; or the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List; is not participating in a boycott of Israel; and does not have any business operations with Cuba or Syria.

TAX EXEMPTIONS - The Village of Estero is tax exempt. The Village’s tax-exempt number is 85-8016684668C-2.

TRADE SECRETS - The Florida Legislature has determined in Florida Statutes § 815.04(3) (as to electronic records), and § 815.045 (as to all other records) that trade secret information, as defined in Florida Statutes § 812.081(1)(c), is confidential and exempt from public records disclosure. The statutory definition provides:

“Trade secret” means the whole or any portion or phase of any formula, pattern, device, combination of devices, or compilation of information which is for use, or is used, in the operation of a business and which provides the business an advantage, or an opportunity to obtain an advantage, over those who do not know or use it. The term includes any scientific, technical, or commercial information, including financial information, and includes any design, process, procedure, list of suppliers, list of customers, business code, or

improvement thereof. Irrespective of novelty, invention, patentability, the state of the prior art, and the level of skill in the business, art, or field to which the subject matter pertains, a trade secret is considered to be:

1. Secret;
2. Of value;
3. For use or in use by the business; and
4. Of advantage to the business, or providing an opportunity to obtain an advantage, over those who do not know or use it

when the owner thereof takes measures to prevent it from becoming available to persons other than those selected by the owner to have access thereto for limited purposes.

However, the Village will not be aware that a bid, proposal, or other response to a procurement solicitation contains such information. Therefore, bidders, proposers or other persons or entities responding to Village solicitations must specifically and clearly identify all portions of their responses which are believed to be a trade secret, as defined by the law, and must, as to each such designation, provide the basis upon which the designated information is a trade secret. PLEASE NOTE that under Florida law, a private party cannot render public records exempt from disclosure as containing trade secrets merely by designating information it furnishes a governmental agency confidential. Thus, the mere designation of an entire submission as “confidential” will be insufficient to comply with this requirement.

While the Village will, to the extent possible, cooperate in any court action a bidder, proposer or responder may bring against any third-party requesting to inspect and copy portions of a response asserted to be a trade secret, if a bidder, proposer or responder fails, *prior to the submission of their materials* to the Village, to specifically and clearly designate information therein as a trade secret and to provide the supporting explanation for the designation, the right to assert the exemption may be lost, and the information may be subject to inspection and copying as otherwise provided for under the Public Records Act.

In the event any record is requested under the Public Records Act, procurement staff will consult with the Village’s legal counsel and, if Village legal counsel agrees with the designation, the Village will assert the exemption and redact the relevant materials. If the Village’s counsel disagrees with the designation, Village staff will inform the bidder, proposer or responder and that person or entity may file an injunctive or declaratory judgment action and seek such emergency orders as desired to protect the information. The Village notes that absent some unusual justification, a bidder’s or proposer’s contract price shall not constitute a trade secret.

PAYMENT AND PERFORMANCE BOND: Pursuant to Florida Statutes § 255.103(2), the Construction Manager must secure an appropriate surety bond pursuant to Florida Statutes § 255.05 and must hold all construction subcontracts.

The requirements of 40 U.S.C. 3704 are applicable to construction work and provide that no laborer or mechanic must be required to work in surroundings or under working conditions which are unsanitary, hazardous or dangerous. These requirements do not apply to the purchases of supplies or materials or articles ordinarily available on the open market, or contracts for transportation or transmission of intelligence.

D. Evaluation Procedure

Pursuant to Florida Statutes § 255.103, a governmental entity must select a construction management entity pursuant to the process provided by Florida Statutes § 287.055. The evaluation criteria define the factors that will be used by an Evaluation Committee to evaluate responsible and qualified proposals. Proposers shall include sufficient information to allow the Evaluation Committee to thoroughly evaluate their proposals. The contract will be awarded to the most qualified Proposer.

The Evaluation Committee may choose to conduct oral interviews with, or receive oral

presentations from, one or more of the Proposers. If the Evaluation Committee chooses to allow oral interviews and/or presentations, pursuant to Florida Statutes § 286.0113(2)(b), any portion of such interviews or oral presentations are exempt from the Florida Sunshine law. If the Village elects to close any such portions of the Evaluation Committee's work, the Village will ensure a recording of such portions will be made in accordance with the statute.

If presentations are requested, the Village Clerk will establish the schedule and proposers will be notified within a reasonable time period (generally 7-calendar days) in advance of the date, time and place of the presentations. The specific format of each presentation will be provided to Proposers with the notifications.

The Village will allot equal time for each Proposer divided into three sequential parts: formal presentations, questions and answers, and discussion. Oral interviews/presentations will provide an opportunity for the Proposers to demonstrate their ability to use time efficiently, effectively and economically. The times allotted are maximums and no firm will be penalized for using less than the allotted time.

The Evaluation Committee will evaluate proposals which have been reviewed for responsiveness and responsibility based on the following criteria:

- The ability, capacity, and skill of the Proposer to perform the work and satisfy the contractual obligations;
- The ability of the Proposer's professional personnel;
- The Proposer's willingness to meet time and budget requirements;
- The Proposer's location;
- The Proposer's recent, current, and projected workloads;
- The volume of work previously awarded to each Proposer by the Village;
- The performance of previous contracts and input from references;
- The sufficiency of the financial resources and ability of the Proposer to provide service for the term of the contract, including extensions;
- Whether the firm is a certified minority business enterprise as defined by the Florida Small and Minority Business Assistance Act; and
- Such other criteria as the Evaluation Committee determines is relevant and necessary to be evaluated, except that any such additional criteria considered shall be set forth in the minutes of the Evaluation Committee and shall be applied equally to all Proposers.

Proposers submitting the required criteria will have their proposals evaluated by an Evaluation Committee and scored for the non-price factors listed above. Weights for cost and location will not be assigned by the Evaluation Committee.

Pursuant to Florida Statutes § 287.05701(3), prospective Proposers are notified that the Village will not request documentation of or consider a vendor's social, political, or ideological interests when determining if the vendor is a responsible vendor, nor will it give preference to a vendor based on the vendor's social, political, or ideological interests.

During the evaluation process and at the sole discretion of the Village, requests for clarification of one or more proposer submittals may be conducted. This request for clarification may be performed by the Village in a written format, or through scheduled oral interviews. Such clarification request will provide proposers with an opportunity to answer any questions the Village may have on a proposer's submittal. After written clarification is completed, the Committee members will have an opportunity to revise their individual scores for the non-price factors.

Once the Evaluation Committee has provided its rankings to the Village Manager, the Village Manager or his/her designee will select in order of preference no fewer than three firms deemed to be the most highly qualified to perform the required services. The Village will then negotiate a contract with the most qualified firm to perform the CM services under such terms and conditions as the Village determines is fair, competitive, and reasonable, while understanding that the Parties will not, at that time, be aware of the Guaranteed Maximum Price.

Should the Village be unable to negotiate a satisfactory contract with the firm considered to be the most qualified at terms the Village determines to be fair, competitive, and reasonable, negotiations with that firm will be formally terminated. The Village will then undertake negotiations with the second most qualified firm. Failing accord with the second most qualified firm, the Village will terminate negotiations and then undertake negotiations with the third most qualified firm.

Should the Village be unable to negotiate a satisfactory contract with any of the selected firms, the Village will select additional firms in the order of their competence and qualification and continue negotiations until an agreement is reached or the Village cancels the competitive process.

E. Form of Agreement

While the final agreement will be subject to negotiations, the Village intends to begin negotiations with its standard Construction Management at Risk form of agreement, incorporating the Village's General Conditions and form of Payment and Performance Bond. These documents are appended to this RFP and incorporated herein.

for liability, damages, and accidents as set forth in this solicitation or any contract arising from this solicitation.

H. Phasing/Costs/Budget.

Construction Manager Fee. The Village will negotiate with the top ranked firm until a successful agreement is executed. The preconstruction and construction services fee will be a flat fee.

Owner Direct Purchases. As authorized by Florida Statutes § 212.08(6), Florida Administrative Code § 12A-1.094, and Florida Department of Revenue Tax Information Publication 13A01-01, the Village reserves the right to require the CM to assign some or all of its subcontracts or other agreements with material suppliers directly to the Village. This process will be referred to as Owner Direct Purchases (ODP) and is a method that may be utilized to create savings for the Village. The Village saves the amount of the sales tax when it purchases material/equipment required for a construction project directly from the manufacturer/supplier (material/equipment cost only), and simultaneously decreases the amount of the contract for the cost of the materials/equipment plus the sales tax. If the Village elects to invoke this process, the contract cost reduction will be accomplished through the issuance of a deductive change order.

Preconstruction Phase. During the preconstruction phase, the CM shall work closely with the Village and the Project Engineer (Engineer) to bring best value and quality to the Project, as defined by the Village. The selected Proposer will be required to sign an agreement with the Village to perform preconstruction services, and the amount of the agreement will be the portion of the fee proposed for preconstruction services.

Cost Monitoring. The Village requires that the CM monitor costs incurred for the Preconstruction Phase separately from costs incurred against the GMP during the Construction Phase. The CM will be required to assist in developing the various aspects of the budget for the project, including architecture/engineering and construction.

Project Phasing. Although the Village anticipates construction in two phases, the Village may benefit if the construction is divided into phasing components in addition to any phasing indicated in this RFP. Examples of possible phasing components are: demolition, hazardous material abatement, placement or relocation of underground utilities, site preparation, parking lots, and landscape. Phasing components shall be identified during the pre-construction phase by the CM and proposed by the CM to the Village. The Village's goal in reviewing with the phasing with CM is to minimize costs and/or expedite the completion project and use of each parcel to be conveyed to the private operators.

Construction Cost Estimates. The CM shall provide construction phase cost estimates at a minimum, at the following points in the project process:

Concept Plan review with the Engineer

30% Design

75% Design

100% plan submittal for the development review process

50% Construction Documents

100% Construction Documents

Project Budget. The CM, in collaboration with the Engineer, is directed to provide a construction design budget. The CM and Engineer shall provide to the Village as a supplement to the design, additive and deductive alternatives to meet the project scope requirements.

The Guaranteed Maximum Price (GMP) is the maximum price that the Village and the CM agree upon as the payment for providing and/or installing all of the work associated with the scope of the project. The GMP is the amount budgeted for the construction of the project.

Construction Phase. The Village reserves the right to approve the subcontractor trade selection process and vendor and may attend any and all meetings related to this process. The CM will participate in regular progress meetings with the Village and provide reports, as needed/requested. The CM will provide photo documentation of the work for each location.

The CM understands and agrees that its books are open for audit by the Village. Owner shall retain five percent (5%) of the gross amount of each monthly payment request or five percent (5%) of the portion thereof certified by Design Professional and approved by Owner for payment, whichever is less, until the Project has reached 50% completion. Upon 50% completion, the Construction Manager may request that the Village pay up to one half of the retainage then held by the Village for properly conducted work. If Village does not dispute the proper delivery of services, then the Village shall make such payment. Once 50% completion is reached, the Village shall only retain up to 5% of each progress payment. Such sum shall be accumulated and not released to Construction Manager until final payment is due. Owner reserves the right to reduce such retainage after Substantial Completion.
