Hello and thank you for your time. It would be great if the village could adopt a policy that required all roads past, present and future that are owned or operated by the village to have an adjacent paved (black top pavement, not concrete) bike/multi-use path. Please have Estero lead the way on creating a community that is safe to both bike and walk in. We have all likely read about the recent deaths to cyclists in Lee county, let's get Estero to be the safest area in the whole country!

Agenda Item No. or Topic

Corkscrew light at Lowe's driveway

Comments (TEXT ONLY) No Pictures or Attachments Accepted

I would support the approval of the additional \$10,000 to finish the design of this needed light. I cannot understand how this design process has dragged on for approximately 15 months when we were told in February 2019 that it would be 1 year from start to a working light. The foot dragging that has gone on has been incredible and unacceptable. Please complete the needed light.
