Three Oaks proposed school

**Comments**

## PUBLIC COMMENT CARD : Entry # 23282

Dear Council members,

Given the tumultuous legal situation and ongoing investigations of the Lee County School Board of Education and school district, I strongly suggest that this proposal be tabled til the dust has settled. Allegations of financial fraud, between this council and the school district is alarming....the allegation of tax payer funds being utilized to purchase land in a 'payback' situation to the school district must be legally clarified BEFORE taxpayer funds are committed. Most taxpayers are not aware that when construction takes place the community elements (water, sewage, roads) it is my understanding that only a small portion of these costs are paid for by the developer. The taxpayer pays the majority percentage. There a special name/ title for theses costs and Mr. Sarkozy can address this as he did with me in an hour plus meeting.

Mr. Sarkozy was unable to explain to me why the Lee County School district is not pursuing land East of I-75 corridor when he told me over 10,000 new housing units were being built or had been approved in that area. Seems to me those student will have to be bussed to the Three Oaks school as part of the expected growth of the school from approx. 1000 initial students to 2,300 students. Given what we have learned about the changes coming to I-75, Corkscrew Rd and Alico Rd exit changes.....Three Oaks. parkway in the near future....building a HUGE school on Three Oaks is an unwise decision. Transporting students to this location is already wrought with safety concerns...imagine what will happen when all the changes around I-75 and Corkscrew/Alico Rd exits....and let's not forget the extension of Three Oaks to Daniels Parkway !

All we need now is an add'l landing strip for RSW to finish ruining Estero.

I would be remiss if I did not mention that taxpayer costs for a Comprehensive Plan including a Land Use Plan that was immediately thrown out the window and changed to accommodate a HUGE school on Three Oaks Parkway!

Is it possible for Estero to consider protecting the smaller, quieter community we all settled here for...or is the almighty dollar set to ruin our community???.

What is the Village Council thinking? A park is worthless when surrounded by highways, traffic, unsafe walking and bike riding conditions, noise and air pollution.

Measure twice, cut once.

**Comments**

The majority of family housing is being built East of Ben Hill Griffin. It would only seem reasonable for any new schools to be built in that area, not in the middle of town. I suspect that the attractiveness of the proposed site is it is paid for and another site would require a financial obligation.. In my mind transpiring children 8 to 10 miles each way for many years into the future would create a larger financial issue than purchasing a new piece of land.

School on Three Oaks... Amending Comp Land Use Plan?

**Comments**

What good is a comprehensive land use plan if you are voting to amend it to place a school directly into an area that was never designed for a large school?  
That is not planning as it is obvious the chosen location is not conducive for a school.

school site on Three Oaks Parkway

**Comments**

This is the absolute worst location for a school. That area is constantly getting flooded as it is, if you pave it over with concrete the flooding will get worse. That intersection is also much too busy for a school, the traffic will be backed up for miles and that is dangerous for kids walking or riding their bikes. Please pick a different location for this new school. Thank you.
