- 1. The dock is not long enough for 2 boats, what is the next step? are they going to be asking to build more dockage? Please ask them how they are planning on docking 2 very long boats in such a small space.
- 2. The boats are much longer with this new company. They are much longer than what was originally allowed. Please look into what the original feet of boat was permitted for.
- 3. These boats are too long and come around the corners way too fast, and the drivers are rude and disrespectful to the river and people on the river.
- 4. It is not appropriate to run a business and these huge boats on what is supposed to be a pristine water way. What are we doing to Estero? I have lived on the river for 36 years and am not objective to a boat, within size limit, running the river, However Pelican Sound is taking advantage of what was given to them. They are always going to want more and not care about the river or the surrounding homes or recreational canoers. Like I said before, the dock is not big enough for 2 huge boats and this is a pristine

water way that should not be taken advantage of for the benefit of Pelican Sound, who have repeatedly shown they do not care about their community or River.

Mooring of Boat at Pelican Sound

Comments (TEXT ONLY) No Pictures or Attachments Accepted

I fully support the establishment of a permanent mooring location for the Pelican Sound boat shuttle to ensure convenience and accessibility. A permanent mooring at Pelican Sound will enhance safety on the river as well as contribute to the health of the river. I have been using this amenity for 20 years, and during that time we have had to moor the boat off property. It simply makes sense to reduce the number of trips on the river and have the boat located at our docks. Thank you for your consideration.

We fully support a permanent mooring for the boat shuttle because it will improve the quality of the service so our community can continue enjoying the river and Lovers Key,, and all the while NOT necessitating use of our cars, which keeps not only Estero but also our neighboring towns from unnecessary air and noise pollution from auto emissions and traffic.

Sirs: I request the board approve the motion to allow Pelican Sound shuttle boat to dock at our boat dock on the Estero River. The boats do not impede the flow of traffic on the river, either by motor boats, kayaks or canoes. The dock is well kept and maintained. The shuttle boats are good neighbors, in fact coming to the aid of boaters in distress last season. Please keep our boats moored on our river!

I have resided in The Pelican Sound community for the past 11 years and enjoy the boat access on our property. I am in favor of the proposed permanent boat shuttle mooring at Pelican Sound so our community can maintain efficient transportation service. By mooring the boat on site, it means less times the boat needs to move about the river from a different mooring location to our dock. Thank you.

Comments (TEXT ONLY) No Pictures or Attachments Accepted

I support a permanent mooring for the boat shuttle so our community can maintain seamless and efficient transportation service. If we loose this service, more residents will purchase boats increasing boat traffic.

If just 400 residents of the (1299) doors-purchase boats imagine the additional traffic on the river.

I fully support establishing a permanent mooring location for the boat shuttles at Pelican Sound. I have been using this amenity for 20 years, and during this time we have had to moor the boat off property. It simply makes sense to reduce the number of trips on the river and have the boat located directly at our docks.

The Pelican Sound river shuttle has not only been an important part of the community but also to the friends and relatives that visit us each year. What they learn is that southwest Florida is considerably more than just beaches. The experience of traveling up and down the river gives an important glimpse of an eco system that is quite representative of this area. I personally enjoy the Kayak experience, but parents, older aunts and uncles and certainly grandchildren enjoy the ride on the shuttle. I hope that the council will grant our request to moor the boats. This will help secure the longevity of this experience for future generations. My children will take their grandchildren down the river because the opportunity is still there and our generation did everything we could to protect the river. One would be able to relate to these issues more if the river has been experienced. I am proud of our community's committment to safety on the river. I am not surprised because the community shows this concern for safety on our streets as well. We will be good neighbor. We hope you see this as well.

Having a ,permanent dedicated mooring for the boat shuttle is important to me as a resident. It will enhance efficiency pluis reduce the traffic on the Estero River. The shuttle has operated for over 20 years on our river resulting in thousands of residents, guests and visitors the opportunity to enjoy the beauty of the environment we live in. I fully support permanent mooring of the Pelican Sound Shuttle at our dock.

Thank you, Joe and Nancy Lucas

I fully support the establishment of a permanent mooring location for the Pelican Sound boat shuttle to ensure continued convenience and accessibility for the residents, as well as to help reduce the boat traffic on the river. I am a long-time resident, and the shuttle is important to me as a way of getting me out where I don't have to drive in the traffic. I enjoy being out on the water, the scenery and walking on the beach. Driving in the traffic and parking is difficult.

Comments (TEXT ONLY) No Pictures or Attachments Accepted

I support the application for a permanent mooring at Pelican Sound to reduce boat traffic and improve safety on the river. The Estero River is an incredible asset for the community. This asset must be protected and safeguarded. Having a permanent mooring at Pelican Sound will reduce the number of trips on the river and is an efficient way to grant access to many people that otherwise would not visit the river. Having certified captains on the river will increase the level of safe operation and provide assets to transport injured people should an accident occur.

Please approve the request for a permanent mooring at Pelican Sound.

With respect,

Ken Stewart Pelican Sound Resident

I fully support establishing a permanent mooring location for the boat shuttles at Pelican Sound. I have been using this amenity for 20 years, and during this time we have had to moor the boat off property. It simply makes sense to reduce the number of trips on the river and have the boat located directly at our docks.

As the chair of the Watercraft and River Committee at Pelican Sound, I lead a team of members who advise Pelican Sound management and the Board of Directors on all matters involving boating, paddling, and other activities involving the Estero River. Our committee has been actively engaged to help resolve this important issue. We fully support the safety and operational changes implemented to ensure safe and courteous operation of our shuttle boats. We believe these changes will help make the Estero River and Bay safer and more enjoyable for everyone including our members, our neighbors, and the many visitors to the area. By allowing permanent overnight mooring of our shuttle boats, we will eliminate unnecessary trips up and down the river and also save time, money, and fuel. I respectfully request your approval of this zoning change. Thank you for your time and attention to this matter.

I fully support establishing a permanent mooring location for the boat shuttles at Pelican Sound. I have been using this amenity for 20 years, and during this time we have had to moor the boat off property. It simply makes sense to reduce the number of trips on the river and have the boat located directly at our docks.

I fully support establishing a permanent mooring location for the boat shuttles at Pelican Sound. I have been using this shuttle for my entire time as an owner of a condo at Pelican Sound, 25 years. During this time we have had to moor the boats off property. This uses more gasoline and causes carbon emissions. It makes sense to moor the boats on property to avoid using excessive gasoline and causing carbon emissions.

Shuttle Boat Mooring

Comments (TEXT ONLY) No Pictures or Attachments Accepted

I have been an owner at Pelican Sound for almost 20 years. Over that time I have annually enjoyed the shuttle from Pelican Sound to Lovers Key. It makes sense that our shuttle be given a permit to moor our shuttle to our dock. It would mean less traffic and environmental impact to the river and neighborhood. Thank you for your consideration.

Note: My permanent address is in Michigan, another state familiar with permitting boats for communities.

Ordinance No. 2025-07 Pelican Sound

Comments (TEXT ONLY) No Pictures or Attachments Accepted

I fully support the establishment of a permanent mooring location for the Pelican Sound boat shuttle to ensure continued convenience and accessibility for residents, as well as to help reduce traffic on the river.

A permanent mooring at Pelican Sound will enhance safety and reliability, and I strongly encourage the Council to approve this request.

I'm resident for 22 years & it only makes sense to moor our boat at our dock thereby reducing traffic & for convenience of our residents. In addition there is many boats & pontoons moored on the river unregulated with many irresponsible in following speeds- our community would adhere strictly to all rules as agreed !!

Please consider this as it is an essential amenity to our community which is enjoyed by all members, families and guests. The Village of Estero has grown tremendously in the 22 years I have owned here. Please respect the owners request. Thank you for your consideration. This location is ideal for PSGRC to continue to enjoy this amenity.

Boat Shuttle mooring on Estero River

Comments (TEXT ONLY) No Pictures or Attachments Accepted

As a 26 year resident of Pelican Sound, and a former boat owner, I'm asking the Village to approve permanent mooring for the Pelican Sound Boat Shuttle at our dock. The shuttle is a great amenity for our members, and having a permanent mooring would be great for the members, the Estero River and the boat staff.

The members will enjoy seeing the shuttle and showing it to their grandkids. The shuttle and the environment will benefit by saving the gas not being used to run up (and out of) the River. And the shuttle crew will certainly enjoy not having to run the shuttle up into the river and out of the river.

I'm not aware of any downside risks associated with the permanent mooring. It seems to be a win-win-win for the crew, the river, the environment and the PS members. Please affirm the mooring request for us to

I respectfully ask that the council and committees vote in favor of Pelican Sound boat shuttle to moor permanently at the dock at Pelican Sound. This is a very important issue to me due to safety and navigating the Estero river with little disruption to neighbors and friends. The beautiful Estero River is a magnificent benefit to all, and Pelican Sound residents wish to be safe, careful, conscientious, respectful users of the River. This shuttle does that; allowing us to moor permanently reduces the River traffic significantly, while allowing alot of us to enjoy the natural beauty in a safe and responsible way.

11/19/2025

Agenda Item No. or Topic

Ordinance 2025-07 Pelican Sound

Comments (TEXT ONLY) No Pictures or Attachments Accepted

I am in favor of the proposed permanent boat shuttle mooring at Pelican Sound, as it will improve both service quality and long-term operational stability. I have been using this amenity for 20 years, and during this time we have had to moor the boat off property. It makes good sense to reduce the number of trips on the river and have the boat located directly at our docks.

Comments (TEXT ONLY) No Pictures or Attachments Accepted

My family and I have enjoyed the boat shuttle for 20 years and consider it one of the most important amenities in Pelican Sound. Mooring our boats at Pelican Sound eliminates trips to an offsite location. At a time we are fighting hard to improve water quality in the river, this only makes sense. I believe a permanent mooring at Pelican Sound will enhance safety and reliability, and aid in improving water quality. I strongly encourage the Council to approve this request.

I fully support the plan to have permanent mooring of the Pelican Sound boat at the current docking area. This will eliminate the need to use a remote location for mooring reducing cost and less early River traffic.

Ordinance No. 2025-07 Pelican Sound

Comments (TEXT ONLY) No Pictures or Attachments Accepted

I fully support establishing a permanent mooring location for the boat shuttles at Pelican Sound. I have been using this amenity for 9 years, and during this time we have had to moor the boat off property. It simply makes sense to reduce the number of trips on the river and have the boat located directly at our docks.

Ordinance NO. 2025-07 Pelican Sound

Comments (TEXT ONLY) No Pictures or Attachments Accepted

As a year round resident of Pelican Sound in Estero, FI, I fully support the proposal for a permanent mooring for the Pelican Sound boat shuttle. The shuttle is a valuable asset for our members and guests. A permanent mooring for this vessel will make the use of it more convenient while, at the same time, reducing river traffic. I have complete confidence that our capable general management here at Pelican Sound will monitor the operation of the shuttle boat to ensure its safe operation.

I fully support establishing a permanent mooring location for the boat shuttles at Pelican Sound. Along with my family, I have been utilizing the boat shuttle to Lover's Key for many years. The boat shuttle reduces the use of privately owned vessels on the Estero River and eliminates significant local car traffic from people otherwise driving to local gulf beaches. A permanent boat shuttle mooring at the Pelican Sound docks also reduces trips the shuttles otherwise have to make up and down the Estero River each day and I respectfully urge the approval of the mooring.

I completely support a permanent mooring location for the boat shuttles at Pelican Sound. I have been enjoying the use of the shuttle for over 20 years. During that time we have had to moor the boat off property. It makes more sense to moor the boat here to reduce trips on the river and have the boat located at our own docks.

I have lived at PSGRC since 2001 and use the river 2 to 3 times a week by putting my pontoon boat in at the dock. In all the years I have never witnessed any loud noise or ill behaviour come from our community boat. I fact the opposite. The captain retrieved an unmoored watercraft and contacted the owners so that they could retrieve it. Courteous neighborly behavior. Allowing PSGRC to moor it's own boat would reduce the daily traffic. I have witnessed many friendly polite interactions between our boat and those on the water from kayaks to larger fishing boats. This boat has always shown the highest safety, care, and given numerous aids on the Estero River. Please allow the permanent mooring at Pelican Sound to further enhance safety and to reduce the amount of trips. I strongly encourage the Council to approve this request.

I am a 25 year full time resident of Pelican Sound and unequivocally fully support establishment of a permanent mooring for boat shuttles at Pelican Sound. For the past 25 years these boats have been required to make extra trips on the Estero River to service our community residents. It only makes common and public safety sense to moor the boats at state of the art, handicap accessible docks and reduce not only the river trips but alternative auto highway driving and beach parking.

Our household fully supports a permanent mooring for the boat shuttle at Pelican Sound. We have lived here for 26+ years and take advantage of this shuttle often. We have never seen any nearby residents complain or come close to this boat when it is docking. Local residents are always very pleasant and welcoming. It just makes sense for this shuttle boat to consume so much less fuel by being moored where it is used.

Let me thank the Council for the opportunity to express my full support of the establishment of a permanent mooring location for the Pelican Sound boat shuttle thereby ensuring 1299 homeowners and taxpayers within Pelican Sound the enjoyment, convenience and accessibility of the Estero River. By providing this permanent mooring location, you as a Council are reducing unnecessary travel to and from Pelican Sound on a daily basis., while also improving service quality and long term operational stability on the Estero River!

I would ask each one of you for your unwavering support of this permanent mooring location.

Thank you!

I'm in favor of the proposed permanent boat shuttle mooring at Pelican Sound, as it will improve both service quality and long term operational stability.

Also, as a 100% disabled veteran, this permanent boat mooring will allow me to enjoy and more easily participate in access to the river and gulf.

I am contacting the council to express my full support for the permanent mooring for our shuttle. This mooring is a great savings for the environment reducing river traffic and eliminating wasted trips to an off site location miles away. Pelican Sound runs up to two boats daily. Mooring here saves a total of four miles long trips everyday. That is the daily return to service and the daily return to an offsite docking location. I can see no functional reason these standard, well maintained recreational passenger boats are a hazard to Estero River traffic traffic or other water sport recreational use. The area is all no wake and another craft at a well established dock location should not present a hazard. Thank you advance for consideration on this matter.

I fully support establishing a permanent mooring location for the boat shuttles at Pelican Sound. I have been using this amenity for many years, and during this time we have had to moor the boat off property. It simply makes sense to reduce the number of trips on the river and have the boat located directly at our docks.

Comments (TEXT ONLY) No Pictures or Attachments Accepted

I am in favor of the proposed permanent boat shuttle mooring at Pelican Sound as it will improve both service quality and long-term operational stability. Temporary moorings have been approved in the past and its location did not hinder the Estero River flow. Why should we be discriminated against while others on the river can store their boats? I'm a full-time resident of 25 years and this is long overdue.

permanent boot mooring at Pelican Sound dock on the Estero river

Comments (TEXT ONLY) No Pictures or Attachments Accepted

The boat shuttle is a vital activity for many kids and handicap passengers as well as others to enjoy the wild life and sea air, and we don't have to clug up the roadways to get to the beach.

Ordinance number 2025-07 Pelican Sound

Comments (TEXT ONLY) No Pictures or Attachments Accepted

I am in favor of the proposed permanent boat shuttle mooring at Pelican Sound as it will improve both service quality and long-term operational stability. Temporary moorings have been approved in the past and its location did not hinder the Estero River flow. Why should we be discriminated against while others on the river can store their boats? I'm a full-time resident of 25 years and this is long overdue.

Ordinance 2025 - 07 Pelican Sound

Comments (TEXT ONLY) No Pictures or Attachments Accepted

I fully support the establishment of a permanent mooring location for the Pelican Sound boat shuttle to ensure continued convenience and accessibility for residents, as well as to help reduce traffic on the River.

I have used this amenity for 18+ years and during this time we have had to moor the boat off property. It makes sense to reduce river trips on the river for our 2500+ residents.

I strongly encourage the council to approve this request

permanent boot mooring at Pelican Sound dock on the Estero river

Comments (TEXT ONLY) No Pictures or Attachments Accepted

The boat shuttle is a vital activity for many kids and handicap passengers as well as others to enjoy the wild life and sea air, and we dont have to clug up the roadways to get to the beach.

Sound wall in the Brooks area

Comments (TEXT ONLY) No Pictures or Attachments Accepted

I ask that the proposed FDOT sound wall along the Brooks be supported. We bought a home in Copperleaf 14 years ago choosing one adjacent to Three Oaks Parkway because it would be farthest from the noise on highway 75. Over the years the noise on Three Oaks has often become quite intolerable especially on weekends. I urge you to support any noise reduction projects not only along Highway 75 but also along Three Oaks Parkway.

Traffic Study

Comments (TEXT ONLY) No Pictures or Attachments Accepted

I have lived off of River Ranch Road in the Spring Ridge community for over 30 years. Each year the amount of traffic continues to increase. Many drivers are speeding, especially in the early afternoon and evening hours. This presents a very possible dangerous situation for anyone walking or on their bicycles. River Ranch Road is narrow and falling apart. We do not need any additional sidewalks. We need the road repaired and much better drainage/ flood management. Additionally, to control the speeding issue, speed bumps are needed and better landscaping.
