Comments

I strongly oppose the construction of an additional gas station on this road. It brings traffic congestion, leading to substantial delays, especially during peak seasons, and our current number of gas stations on this route is already sufficient.

Wawa on Corkscrew Road

Comments

What is going to be done about the traffic concerns during season? Heading north on Three Oaks in afternoon rush hour means sitting thru 3-4 red lights almost every day. Eastbound Corkscrew road some morning rush hour is way backed up. Wawa and new developments that will be opening are going to make matters worse. Corkscrew Road and Three Oaks Pkwy appears to not be able to be widened to allow for more traffic later on, so why do you keep adding more things to make Estero's main interchange be increasingly problematic?

Water supply

Comments

With the lack of rain and the tremendous amount of new homes are we going to face a water supply crisis? At some point shouldn't we curtail new construction?

Dining & Entertainment Development

Comments

I cannot attend the meeting but would like to see the Village of Estero plan more dining and entertainment venues - particularly some nicer, fun restaurants. With all the new homes in Estero, it seems there would be a population base to also successfully support new restaurants. as well as some nice entertainment venues. This would also help alleviate us frequently traveling to Bonita, Naples and Ft. Myers for dining and entertainment options.

Gulf Coast Driving Range

Comments

I believe the Gulf Coast Driving Range can be updated, but should remain. Please do not over-develop the recreational site. Estero doing a very nice job regulating the architectural design and landscaping of newer developments. But I believe we are at a point of over-development in Estero, with not enough space being preserved..

Thanks.

Williams Road

Comments

When will the traffic situation on the west side of Williams Road at the intersection with Tamiami Trail be addressed? People making illegal turns coming from Walgreens are accidents waiting to happen. The current plastic sticks are useless are are constantly being run over. This in addition to the long backups at the traffic signal. Would suggest for consideration, that concrete traffic lane dividers be installed, similar to the concrete lane dividers at the traffic circle on Old 41 at the intersection with Terry Street in Bonita Springs.

Design of new developments

Comments

Hi,
I suggest that it would be prudent to require EV charging stations at all new residential developments as well as commercial developments. Thank you, Mary Tousignant
