Woodfield mixed use development to be discussed 2/13/24 meeting

**Comments**

Please stop and think about approving any further development. It does not take a traffic engineer to determine that Lee county and Estero do not have the infrastructures necessary to support further building. I am also sure that water and other vital services can't be supported within a few years without further property tax increases. Please go out on 41 at rush hour or any other time to see the mess you are creating. Estero is a very nice community and I can't understand why you feel the need to keep expanding, except for the pursuit of the almighty dollar. Thank you for letting me comment on this issue.

Woodfield Development

**Comments**

We have way too much building going on in this community to handle the traffic. You need to consider the infrastructure before anymore building. The developers promise they will maintain the area next to your property and that is false! They plant it and then leave. Most greenery is dying except trees.

Multi family housing

**Comments**

There is far too much multi-family housing units being proposed and approved. The roads and traffic are already extremely crowded and dangerous. You need to do a better job of coordinating road improve with population density.

Development/ overdevelopment

**Comments**

Estero needs to PAUSE with the development!

Stop building and take a breath! This is an experiment, and we will find out the results this summer in rainy season..... where will the water go. Hopefully the roads are drivable, cars won't be flooded and may God help us, home flooding, along corkscrew road- where you've allowed development, on WETLANDS, amongst Mines, also: DURING a massive road construction project!!!! Way to go on that decision, but not really. Pulling out of The Preserve community and driving on corkscrew to Ben hill griffin is SO extremely dangerous!!!!

Something needs to be done about these IDIoT drivers, too. They speed, in a merge lane that is unnatural since it's coming from the right, and not the left- it's EXTREMELY dangerous. Many selfish people here, driving out of control. I've almost been hit so many times, I got fed up and called the non emergency police line, requesting they sit a police car or put speed meter; something!!!

It is So dangerous!!!

**PUBLIC COMMENT CARD : Entry # 53107**

Do one thing at a time, not road construction, and developments. This area has become disgusting. Greed has destroyed this community

Expansion

**Comments**

The Village needs to put a moratorium on building and expansion, specifically with respect to apartment buildings. It's almost as if this is all you guys know how to approve. How about adding some green space, bike lanes, walking paths, etc so this place functions and acts like a community? All we are doing is adding traffic and retail. There's nothing special about what's going up. It's just stuff. There's no character to it.

Start focusing on projects that add to the character and culture of Estero.

approving new communities that may an additional 10,000 homes

**Comments**

We are already restricting water usage, does it make any sense to add 10,000 homes.. It's possible with adding 10,000 homes could add 10,000 new students to the school system are we ready to handle that expense.
