Agenda Item No. or Topic

possible zoning change on the Estero River

Comments (TEXT ONLY) No Pictures or Attachments Accepted

I am part of the Mariners Cove community which is located on the Estero River. We have many many boats on lifts at our docks. Boating is a huge part of our 55 & over community. We not only do alot of pleasure boating on pontoons as well as other types of boats, but we do a great amount of fishing! As you know the Estero River is very windy with sharp "blind" curves. The river is shallow in ALOT of places. Every time we go out on our boat we navigate carefully thru the river, keeping in mind of the rivers boundries & depths as well as all the kayaks, canoes, paddle boards from the Estero River Outfitters, so everyone is safe! If you allow Pelican Landing to change the zoning for their large tour/fishing charter boat to have permanent mooring, it will make the Estero River more dangerous for the exisiting boaters who live & play on the river.

In the 1990s when zoning for this development was originally requested from Lee County, Pelican Sound was emphatic that there would be minimal impact to the Estero River and this included NO PERMANENT MOORINGS. It was on this condition that the development was approved.

PUBLIC COMMENT CARD : Entry # 69592

1. The Estero River is designated as an Outstanding Florida Waterway. This designation means the River receives the highest levels of state protection and CANNOT BE SUBJECT TO ANY NEW PERMITS that would lower its existing water quality. Allowing permanent mooring of their fleet shuttle boats clearly goes against this DEP regulations.

3. These shuttle boats they want to have perm mooring are very large in both beam and length. The river is shallow and narrow in many places, and these boats are just too big for the river.

I hope that we can get this information out to as many local residents as possible. Our River is precious and needs to be protected. If this request from Pelican Sound is approved, it sets up a dangerous precedent for future requests that can degrade our fragile ecosystem.

Please help us protect the Estero River! Sincerely Cris Suesz

Agenda Item No. or Topic

Amendment to pelican sound boat mooring

Comments (TEXT ONLY) No Pictures or Attachments Accepted

I'm an owner and boater from mariners cove. We have been boating on the estero river since 1980 and the river is not safe as it once was. The number and size of boats have changed considerably over the years. Now there are 40 ft. commercial boats running the river daily back and forth hauling people from pelican sound to the beach. Our beautiful Estero river that is very narrow and shallow in many spots has become a Hazard zone.

These giant people hauling boats should not be operating on this narrow and shallow river let alone be parking on it.

If something isn't done to stop the boats of this size running on this river someone is going to be seriously hurt.

Respectfully,

Jeff Brenneman
