Entrance to and egress from the property.

Comments

I attended a meeting about the proposed school site last March/April. The layout of the campus had just ONE point of entry & exit to the school campus which was by Three Oaks Pkwy, across from VCC. I questioned this as being extremely unsafe. If there were any problem/traffic issue on Three Oaks or I 75, all campus traffic would be stuck in place. If someone wanted to attack the school, they could block the driveway or gate area and cause great harm to those on campus. When I went to school back in the 60's, when there was no threat to schools, we had THREE points of exit on our campus. I propose that there be at least a secondary exit that does not dump onto Three Oaks. Best would be three exits that go to Three Oaks, Corkscrew and another road by the outlets. Please respond to this proposal. Thank you.

AAAA PreK-8 school

Comments

To whom it may concern,

My wife and I live in the Villages of Country Creek. We are "AGAINST" the proposed building of the school that is to be located on Three Oaks Parkway. This proposed school will add to more traffic to the community and will create more drainage problems, especially during rainy season. If you feel you need to build this proposed school, please consider building this school elsewhere .

Thank you.

Comments

My understanding is there will be approximately 2200 children and adults at the school. I cannot understand how 1 entrance also work as the exit for the school. If there is an emergency evacuation, I do not see many people getting out especially with panicked parents trying to get in to gets their children. I propose an exit to Corkscrew would work. One way in, from Three Oaks, and one way out, to Corkscrew. Thank you
