Re: Wildcat Run Proposed Pickleball Courts

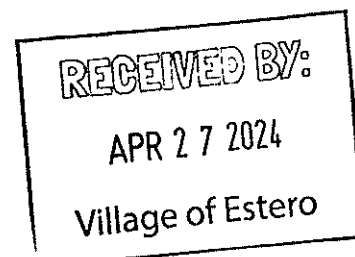

Dear Council Members,

I have been a resident of WCR and Estero for several years. I am writing to you in support of the proposal to add pickleball courts in Wildcat Run. I fully endorse the proposal as outlined by our board and manager. I am however concerned about any noise issues as it pertains to the residents and guests of the homes in proximity to the proposed courts. I understand that WCR has conducted a sound survey and that the addition will have minimal impact on those nearby. If that is the case then I would recommend that the board vote favorably on the matter.

My concern of noise is based in the fact that WCR often disregards the current noise ordinances and as such their ability to be a good steward of excess noise should be considered suspect. The requirement to limit noise levels to 55 db between 10:00 pm and 7:00 am in residential areas is ignored most days. Generally, starting each day at 6:00 am (some days earlier), WCR starts lawn mowers on the golf course that produce between 90 and 100 db, far in excess of the ordinance. This particular issue was raised by a resident a few years back at one of the coffees with the GM/Club President and was brushed aside suggesting that this is what one should expect living on a golf course.

Grass is only cut once a day but pickle ball will run the better part of each day. I hope that the addition of the courts is approved and at the same time ask that you include a meaningful provision to protect residents from noise that would impact their ability to continue to peacefully enjoy their property.

Thank you,

Hello. I would like to request that Estero begin, in earnest, to implement enhanced measures to improve water retention and drainage.

I ask that consideration be given to using permeable pavers in some or all of the parking areas of these properties. Reducing, or eliminating concrete and/or asphalt, could improve water retention and drainage.

Thank you.  
Robert J. Mervis

Celebree Daycare school

**Comments**

This is an excellent location for this daycare school. It has access from both the South and West to control traffic flow and located near I75. This type of facility is definitely needed. You should approve this ASAP.
